

CHERMAYEFF & GEISMAR

GRAPHIC DESIGN LEGENDS

LANDMARK ART COLLECTION

Internationally known designers Chermayeff & Geismar, the team that has revolutionized visual communication, have chosen Stair Galleries, as their venue for selling the art collection they have amassed from around the globe over the past four decades. This single-owner sale fully displays the variety and depth of their collection. Not only are works by contemporary A-list artists being offered; there are emerging artists represented in the sale and significant artists to be rediscovered.

Chermayeff & Geismar images and icons are burned into our collective subconscious. The pieces being offered at auction are the works that inspired them and the artists they nurtured and encouraged. The collection touches upon nearly every significant art movement of the 20th c., from Bauhaus to Pop, taking us through an international evolution of Modernism and revealing the impact it has had on our lives.
